Note:

*before and after a meeting or an event – there is ‘time investment’ in PAC time – we reflect and share the observations together.

* At the conference in Niagara Falls – there is a great number of educators from universities, we will try to make personal connections and there is always a possibility to go out for a dinner with an educator from Canada. The tour is trying to give the students the opportunities to empower them and make transatlantic connections, which may serve them well and their further career opportunities in Canada.
