

SD68 Summer Program 2027

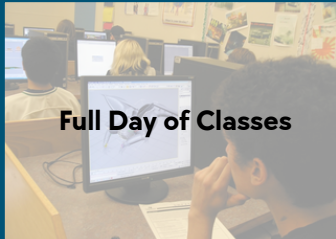

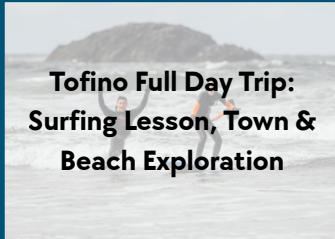

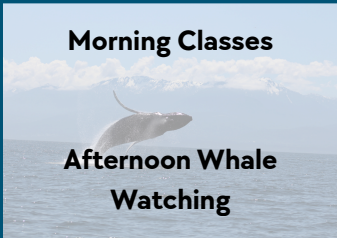

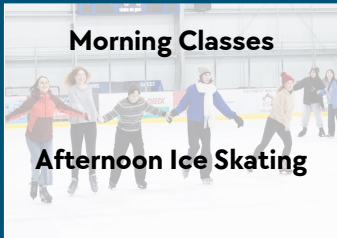

Spend 3 unforgettable weeks immersed in English while surrounded by the natural beauty and welcoming culture of coastal Canada. Our summer school program in Nanaimo, British Columbia offers students a unique opportunity to rapidly improve their English skills through engaging, real-world experiences and thoughtful classroom lessons in subjects of Media Design and Drama. With professional BC Certified teachers and interactive activities, students learn new skills and gain confidence in speaking, listening, and everyday communication.

Students explore local culture, learn about Canadian traditions and history, and build friendships. The various exciting excursions are designed to make learning unforgettable, showcasing the beauty of British Columbia while students use English in fun and meaningful ways. Another highlight of the program is the opportunity to live with a carefully selected Canadian host family. By sharing meals, participating in family activities, and experiencing everyday life in Canada, students form a deeper cultural understanding, develop their English faster and form meaningful personal connections.
